Since the materials are very scarce, the Mysore Small Scale Industries Corporation which is a Government body, gets raw materials from the Hindustan Steels, Tatas and other places and distributes them on a priority basis to all the old quota holders who have got the machinery and other necessary arrangement for the production of these materials.

ಶ್ರೀ ಎಂ. ನಾಗಪ್ಪ.—ಈ ತರಹ ಸರ್ಕಾರ ಒದಗಿಸಿಕೊಡತಕ್ಕಂಥ ಉದ್ದೇಶ ಏನು? ತಾವು ನಬ್ಬಿಡಿ ಕೊಟ್ಟುಕೊಡುತ್ತೀರೋ ಅಥವಾ ಮಾರ್ಕೆಟ್ ರೇಟಿಗೂ, ನೀವು ಕೊಡತಕ್ಕ ರೇಟಿಗೂ ವ್ಯತ್ಯಾಸವಿದೆಯೇ ?

Sri A. P. APPANNA.—In spite of the fact that control has been removed, the material is scarce. So the mateial that has come to the Market is got by the Blackmarketeers and sold to the Small-Scale Indus. trialists at higher rate. In order to see that no harassment is caused, the Mysore Small Scale Industries Corporation is directly contacting the Hindustan Steels, Tatas and other Companies and getting certain amount of raw material promptly and marketing it to the small-scale industrialists on the basis of their installed capacity. I can say that what the Small Scale Industries Corporation is supplying to the small-scale industries is not sufficient and they are not getting as much we want them to.

Sri C. K. RAJAIAH SHETTY.—For what purpose are these B. P. Sheets and G. P. Sheets used ?

Sri A. P. APPANNA.—They are using them for manufacturing buckets, agricultural implements and sheet metal for workshop. I am not a technical man and I am giving the information from such knowledge I have acquired recently.
